NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
At June 30, 2018 – Unaudited
(In thousands, except share data, unless otherwise stated)

1. BASIS OF PRESENTATION

Mettler-Toledo International Inc. ("Mettler-Toledo" or the "Company") is a leading global supplier of precision instruments and services. The Company manufactures weighing instruments for use in laboratory, industrial, packaging, logistics and food retailing applications. The Company also manufactures several related analytical instruments and provides automated chemistry solutions used in drug and chemical compound discovery and development. In addition, the Company manufactures metal detection and other end-of-line inspection systems used in production and packaging and provides solutions for use in certain process analytics applications. The Company's primary manufacturing facilities are located in China, Germany, Switzerland, the United Kingdom and the United States. The Company's principal executive offices are located in Columbus, Ohio and Greifensee, Switzerland.

The accompanying interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and include all entities in which the Company has control, which are its wholly-owned subsidiaries. The interim consolidated financial statements have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. The interim consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

The accompanying interim consolidated financial statements reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of the interim periods presented. Operating results for the three and six months ended June 30, 2018 are not necessarily indicative of the results to be expected for the full year ending December 31, 2018.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Actual results may differ from those estimates. A discussion of the Company's critical accounting policies is included in Management's Discussion and Analysis of Financial Condition and Results of Operations and the Notes to the Consolidated Financial Statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

All intercompany transactions and balances have been eliminated.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Trade Accounts Receivable

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for doubtful accounts represents the Company's best estimate of probable credit losses in its existing trade accounts receivable. The Company determines the allowance based upon a review of both specific accounts for collection and the age of the accounts receivable portfolio.

Inventories

Inventories are valued at the lower of cost or net realizable value. Cost, which includes direct materials, labor and overhead, is generally determined using the first in, first out (FIFO) method. The estimated net realizable value is based on assumptions for future demand and related pricing. Adjustments to the cost basis of the Company's inventory are made for excess and obsolete items based on usage, orders and technological obsolescence. If actual market conditions are less favorable than those projected by management, reductions in the value of inventory may be required.

Inventories consisted of the following:

	June 30, 2018	December 31, 2017
Raw materials and parts	\$ 121,265	\$ 118,790
Work-in-progress	50,186	43,035
Finished goods	98,596	93,565
	<u>\$ 270,047</u>	<u>\$ 255,390</u>

Goodwill and Other Intangible Assets

Goodwill, representing the excess of purchase price over the net asset value of companies acquired, and indefinite-lived intangible assets are not amortized, but are reviewed for impairment annually in the fourth quarter, or more frequently if events or changes in circumstances indicate that an asset might be impaired. The annual evaluation for goodwill and indefinite-lived intangible assets are generally based on an assessment of qualitative and quantitative factors to determine whether it is more likely than not that the fair value of the asset is less than its carrying amount.

Other intangible assets include indefinite-lived assets and assets subject to amortization. Where applicable, amortization is charged on a straight-line basis over the expected period of benefit. The straight-line method of amortization reflects an appropriate allocation of the cost of the intangible assets to earnings in proportion to the amount of economic benefits obtained by the Company in each reporting period. The Company assesses the initial acquisition of intangible assets in accordance with the provisions of ASC 805 "Business Combinations" and the continued accounting for previously recognized intangible assets and goodwill in accordance with the provisions of ASC 350 "Intangible - Goodwill and Other" and ASC 360 "Property, Plant and Equipment".

Other intangible assets consisted of the following:

METTLER-TOLEDO INTERNATIONAL INC.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
At June 30, 2018 – Unaudited (Continued)
(In thousands, except share data, unless otherwise stated)

The Company recognized amortization expense associated with the above intangible assets of \$3.5 million and \$2.5 million for the three months ended June 30, 2018 and 2017, respectively and \$7.1 million and \$5.0 million for the six months ended June 30, 2018 and 2017, respectively. The annual aggregate amortization expense based on the current balance of other intangible assets is estimated at \$14.0 million for 2018, \$13.4 million for 2019, \$13.1 million for 2020, \$12.5 million for 2021, \$12.0 million for 2022 and \$11.8 million for 2023. Purchased intangible amortization was \$3.3 million, \$2.5 million after tax, and \$2.3 million, \$1.5 million after tax, for the three months ended June 30, 2018 and 2017, respectively and \$6.7 million, \$5.0 million after tax, and \$4.6 million, \$3.0 million after tax, for the six months ended June 30, 2018 and 2017, respectively.

In addition to the above amortization, the Company recorded amortization expense associated with capitalized software of \$8.4 million and \$7.7 million for the three months ended June 30, 2018 and 2017, respectively and \$16.5 million and \$15.2 million for the six months ended June 30, 2018 and 2017, respectively.

Revenue Recognition

Product revenue is recognized from contracts with customers when a customer has obtained control of a product. The Company considers control to have transferred upon shipping terms. To the extent the Company's contracts have a separate performance obligation, revenue related to any post-shipment performance obligation is deferred until completed. Shipping and handling costs charged to customers are included in total net sales and the associated expense is a component of cost of sales. Certain products are also sold through indirect distribution channels whereby the distributor assumes any further obligations to the end customer. Revenue is recognized on these distributor arrangements upon transfer of control to the distributor. Contracts do not contain variable pricing arrangements that are retrospective, except for rebate programs. Rebates are estimated based on expected sales volumes and offset against revenue at the time such revenue is recognized. The Company generally maintains the right to accept or reject a product return in its terms and conditions and also maintains appropriate accruals for outstanding credits. The provisions for estimated returns and rebates are immaterial to the consolidated financial statements.

Certain of the Company's arrangements include separate performance obligations, primarily related to installation. Such performance obligations are accounted for separately when the deliverables have stand-alone value and the satisfaction of the undelivered performance obligations is probable and within the Company's control. The allocation of revenue between the performance obligations is based on the observable standalone selling prices at the time of the sale in accordance with a number of factors including service technician billing rates, time to install and geographic location.

Software is generally not considered a distinct performance obligation with the exception of a few small software applications. The Company does not sell software products without the related hardware instrument as the software is embedded in the product. The Company's products typically require no significant production, modification, or customization of the hardware or software that is essential to the functionality of the products.

Service revenue not under contract is recognized upon the completion of the service performed. Revenue from spare parts sold on a stand-alone basis is recognized when control is transferred to the customer, which is generally at the time of shipment or delivery. Revenue from service contracts is recognized ratably over the contract period using a time-based method. These contracts represent an obligation to perform repair and other services including regulatory compliance qualification, calibration, certification, and preventative maintenance on a customer's pre-defined equipment over the contract period.

NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
At June 30, 2018 – Unaudited (Continued)
(In thousands, except share data, unless otherwise stated)

Warranty

The Company generally offers one-year warranties on most of its products. Product warranties are recorded at the time revenue is recognized. While the Company engages in extensive product quality programs and processes, its warranty obligations are affected by product failure rates, material usage and service costs incurred in correcting a product failure.

Employee Termination Benefits

In situations where contractual termination benefits exist, the Company records accruals for employee termination benefits when it is probable that a liability has been incurred and the amount of the liability is reasonably estimable. All other employee termination arrangements are recognized and measured at their fair value at the communication date unless the employee is required to render additional service beyond the legal notification period, in which case the liability is recognized ratably over the future service period.

Share-Based Compensation

The Company recognizes share-based compensation expense within selling, general and administrative in the consolidated statements of operations and other comprehensive income with a corresponding offset to additional paid-in capital in the consolidated balance sheet. The Company recorded \$3.9 million and \$8.2 million of share-based compensation expense for the three and six months ended June 30, 2018, respectively, compared to \$3.9 million and \$7.8 million for the corresponding periods in 2017.

Research and Development

Research and development costs primarily consist of salaries, consulting and other costs. The Company expenses these costs as incurred.

Recent Accounting Pronouncements

On January 1, 2018 the Company retrospectively implemented ASU 2017-7 to ASC 715 "Compensation - Retirement Benefits," which requires the Company to report the non-service cost components of net periodic benefit cost (pension cost) in other charges (income), net. These amounts were previously reported in selling, general, and administrative, cost of sales and research and development in the consolidated statement of operations. Nonservice pension benefits were \$1.5 million and \$1.1 million for the three months ended June 30, 2018 and 2017, respectively, and \$3.1 million and \$1.9 million and for the six months ended June 30, 2018 and 2017, respectively.

In February 2016, the FASB issued ASU 2016-02 to ASC 842 "Leases." The accounting guidance primarily requires lessees to recognize most leases on their balance sheet as a right to use asset and a lease liability, with the exception of short term leases. A lessee will continue to recognize lease expense on a straight-line basis for leases classified as operating leases. The guidance becomes effective for fiscal years beginning after December 15, 2018. The Company's primary leasing arrangements are related to leased facilities and vehicle fleet leases. The Company is currently evaluating the impact of this guidance.

In February 2018, the FASB issued ASU 2018-02, "Income Statement - Reporting Comprehensive Income". The accounting update provided entities with guidance on how to reclassify certain stranded tax effects from accumulated other comprehensive income as a result of the Tax Cuts and Jobs Act, which was a tax bill enacted by the U.S. government in December 2017. The new guidance is effective for the year beginning January 1, 2019 and the Company is still evaluating the impact on the financial statements.

3. REVENUE

On January 1, 2018, the Company adopted ASC 606 "Revenue from Contracts with Customers" and all the related amendments using the modified retrospective method, whereby the adoption does not impact any prior periods. The effect of adopting the new standard did not require any cumulative effect adjustment to retained earnings as of January 1, 2018. There was no impact to our consolidated statements of operations, balance sheet, or statement of cash flows as of and for the period ended June 30, 2018.

The Company disaggregates revenue from contracts with customers by product, service, timing of revenue recognition and geography. A summary by the Company's reportable segments follows for the three and six months ended June 30, 2018:

Three months ended June 30, 2018	U.S. Operations	Swiss Operations	Western European Operations	Chinese Operations	Other Operations	Total

The Company's global revenue mix by product category is laboratory (51% of sales), industrial (41% of sales) and retail (8% of sales). The Company's product revenue by reportable segment is proportionately similar to the Company's global mix except the Company's Swiss Operations is largely comprised of laboratory products while the Company's Chinese Operations has a slightly higher percentage of industrial products. A summary of the Company's revenue by product category for the three and six months ended June 30, 2018 is as follows:

	Three months ended June 30, 2018	Six months ended June 30, 2018
Laboratory	\$ 361,726	\$ 706,885
Industrial	305,277	567,933
Retail	54,993	107,999
Total	\$ 721,996	\$ 1,382,817

The payment terms in the Company's contracts with customers do not exceed one year and therefore contracts do not contain a significant financing component. In most cases, after appropriate credit evaluations, payments are due in arrears and are recognized as receivables. Unbilled revenue is recorded when performance obligations have been satisfied, but the Company does not have right to receive payment. Unbilled revenue as of June 30, 2018 was \$16.7 million and is included within accounts receivable. Deferred revenue and customer prepayments are recorded when cash payments are received or due in advance of the performance obligation being satisfied. Deferred revenue primarily includes prepaid service contracts, as well as deferred installation.

Changes in the components of deferred revenue and customer prepayments during the period are as follows:

	Deferred Revenue and Customer Pre-payments	
Beginning balances as of December 31, 2017	\$	107,166
Customer pre-payments/deferred revenue		282,446
Revenue recognized		(260,280)
Foreign currency translation		(2,497)
Ending balance as of June 30, 2018	\$	126,835

The Company generally expenses sales commissions when incurred because the amortization period is one year or less. These costs are recorded within selling, general, and administrative expenses. The Company has not disclosed the value of unsatisfied performance obligations other than customer prepayments and deferred revenue above as most contracts have an expected length of one year or less and amounts greater than one year are immaterial.

4. FINANCIAL INSTRUMENTS

The Company has limited involvement with derivative financial instruments and does not use them for trading purposes. The Company enters into certain interest rate swap agreements in order to manage its exposure to changes in interest rates. The amount of the Company's fixed obligation interest payments may change based upon the expiration dates of its interest rate swap agreements and the level and composition of its debt. The Company also enters into certain foreign currency forward contracts to limit the Company's exposure to currency fluctuations on the respective hedged items. As also mentioned in Note 7, the Company has designated its euro denominated debt as a hedge of a portion of its net investment in euro-denominated foreign operations. For additional disclosures on the fair value of financial instruments, see Note 5 to the interim consolidated financial statements.

Cash Flow Hedges

In June 2017, the Company entered into a cross currency swap arrangement designated as a cash flow hedge. The agreement converts \$100 million of borrowings under the Company's credit facility into synthetic Swiss franc debt which allows the Company to effectively change the floating rate LIBOR-based interest payment to a fixed Swiss franc income of 0.01%. The swap began in June 2017 and matures in June 2019.

The Company has an interest rate swap agreement designated as a cash flow hedge. The agreement is a swap which has the effect of changing the floating rate LIBOR-based interest payments associated with \$50 million of borrowings under the Company's credit facility to a fixed obligation of 2.52%. The swap began in October 2015 and matures in October 2020.

In March 2015, the Company entered into a forward-starting interest rate swap agreement. The agreement is a swap which has the effect of changing the floating rate LIBOR-based interest payments associated with \$100 million of borrowings under the Company's credit agreement to a fixed obligation of 2.25% beginning in February 2017 and matures in February 2022.

The Company's cash flow hedges are recorded gross at fair value in the consolidated balance sheet at June 30, 2018 and December 31, 2017, respectively, and disclosed in Note 5 to the consolidated financial statements. Amounts reclassified into other comprehensive income and the effective portions of the cash flow hedges are further disclosed in Note 9 to the consolidated financial statements. A derivative gain of \$3.1 million based upon interest rates and foreign currency rates at June 30, 2018, is expected to be reclassified from other comprehensive income (loss) to earnings in the next twelve months. Through June 30, 2018, no hedge ineffectiveness has occurred in relation to the cash flow hedges.

Other Derivatives

The Company enters into foreign currency forward contracts in order to economically hedge short-term trade and non-trade intercompany balances largely denominated in Swiss franc, other major European currencies, and the Chinese Renminbi with its foreign businesses. In accordance with U.S. GAAP, these contracts are considered "derivatives not designated as hedging instruments." Gains or losses on these instruments are reported in current earnings. The foreign currency forward contracts are recorded at fair value in the consolidated balance sheet at June 30, 2018 and December 31, 2017, respectively, and disclosed in Note 5. The Company recognized in other charges (income), a net loss of \$1.5 million and a net gain of \$0.1 million during the three months ended June 30, 2018 and 2017, respectively, and a net gain of \$4.2 million and \$1.9 million during the six months ended June 30, 2018 and 2017, respectively. The gains and losses are primarily offset by the underlying transaction gains and losses on the related intercompany balances. At June 30, 2018 and December 31, 2017, these contracts had a notional value of \$407.1 million and \$394.8 million, respectively.

5. FAIR VALUE MEASUREMENTS

At June 30, 2018 and December 31, 2017, the Company had derivative assets totaling \$4.5 million and \$1.9 million in both periods, respectively, and derivative liabilities totaling \$2.7 million and \$2.4 million, respectively. The fair values of the interest rate swap agreements, foreign currency forward contracts designated as cash flow hedges and foreign currency forward contracts that economically hedge short-term intercompany balances are estimated based upon inputs from current valuation information obtained from dealer quotes and priced with observable market assumptions and appropriate valuation adjustments for credit risk. The Company has evaluated the valuation methodologies used to develop the fair values by dealers in order to determine whether such valuations are representative of an exit price in the Company's principal market. In addition, the Company uses an internally developed model to perform testing on the valuations received from brokers. The Company has also considered both its own credit risk

and counterparty credit risk in determining fair value and determined these adjustments were insignificant at June 30, 2018 and December 31, 2017.

At June 30, 2018 and December 31, 2017, the Company had \$13.4 million and \$5.6 million of cash equivalents, respectively, the fair value of which is determined through quoted and corroborated prices in active markets. The fair value of cash equivalents approximates cost.

The fair value of the Company's fixed interest rate debt was estimated using Level 2 inputs, primarily discounted cash flow models, based on estimated current rates offered for similar debt under current market conditions for the Company. The fair value of the Company's debt exceeds the carrying value by approximately \$0.5 million as of June 30, 2018.

The fair value of the contingent consideration obligation of \$30.9 million relating to the Biotix acquisition as of June 30, 2018 is based on the Company's forecast of future results. The fair value measurements are based on significant inputs not observable in the market and thus represent a Level 3 measurement.

Under U.S. GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement consists of observable and unobservable inputs that reflect the assumptions that a market participant would use in pricing an asset or liability.

A fair value hierarchy has been established that categorizes these inputs into three levels:

Level 1: Quoted prices in active markets for identical assets and liabilities

Level 2: Observable inputs other than quoted prices in active markets for identical assets and liabilities

Level 3: Unobservable inputs

The following table presents for each of these hierarchy levels, the Company's assets and liabilities that are measured at fair value on a recurring basis at June 30, 2018 and December 31, 2017:

	June 30, 2018				December 31, 2017

6. INCOME TAXES

The Company's reported tax rate was 22.4% and 19.9% during the three months ended June 30, 2018 and 2017, respectively and 21.6% and 19.4% during the six months ended June 30, 2018 and 2017, respectively. The provision for taxes is based upon using the Company's projected annual effective tax rate of 22.0% before non-recurring discrete tax items for the three and six months periods ended June 30, 2018. The difference between the Company's projected annual effective tax rate of 22.0% and the reported tax rate is related to the timing of excess tax benefits associated with stock option exercises.

On December 22, 2017, the Tax Cuts and Jobs Act (the "Act") significantly revised U.S. corporate income tax law. The Act includes, among other things, a reduction in the U.S. federal corporate income tax rate from 35% to 21% effective for taxable years beginning after December 31, 2017, and the implementation of a modified territorial tax system that includes a one-time transition tax on deemed repatriated earnings of foreign subsidiaries ("Transition Tax") that is payable over a period of up to eight years.

The Company's accounting for the Act is based upon reasonable estimates, however, the estimates may change upon the finalization of the Act's implementation and additional interpretive guidance from regulatory authorities. Among other things, the Company needs to complete its analysis of historical foreign earnings and related taxes paid and its analysis of foreign cash equivalents. In addition, the Company needs to complete its analysis of deemed repatriation of deferred foreign income and related.

7. DEBT

Debt consisted of the following at June 30, 2018:

	June 30, 2018		
	U.S. Dollar	Other Principal Trading Currencies	Total

Credit Agreement

On June 15, 2018 the Company entered into an amended \$1.1 billion Credit Agreement (the "Credit Agreement"), which amended its \$800 million Amended and Restated Credit Agreement (the "Prior Credit Agreement"). As of June 30, 2018, the Company had \$566.9 million of availability remaining under its Credit Agreement.

METTLER-TOLEDO INTERNATIONAL INC.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS
At June 30, 2018 – Unaudited (Continued)
(In thousands, except share data, unless otherwise stated)

The Credit Agreement is provided by a group of financial institutions (similar to the Company's Prior Credit Agreement) and has a maturity date of June 15, 2023. It is a revolving credit facility and is not subject to any scheduled principal payments prior to maturity. The obligations under the Credit Agreement are unsecured.

Borrowings under the Credit Agreement bear interest at current market rates plus a margin based on the Company's consolidated leverage ratio, which was set at LIBOR plus 87.5 basis points as of June 15, 2018. The Company must also pay facility fees that are tied to its leverage ratio. The Credit Agreement contains covenants that are the same as those contained in the prior Credit Agreement, with which the Company was in compliance as of June 30, 2018. The Company is required to maintain a ratio of funded debt to Consolidated EBITDA of 3.5 to 1.0 or less and an interest coverage ratio of 3.5 to 1.0 or greater. The Credit Agreement also places certain limitations on the Company, including limiting the ability to incur liens or indebtedness at a subsidiary level. In addition, the Credit Agreement has several events of default. The Company incurred approximately \$0.1 million of debt extinguishment costs during 2018 related to the Prior Credit Agreement. The Company capitalized \$2.0 million in financing fees during 2018 associated with the Credit Agreement which will be amortized to interest expense through 2023.

Other Local Arrangements

In April 2018, two of the Company's non-U.S. pension plans issued loans totaling \$39.6 million (Swiss franc 38 million) to a wholly owned subsidiary of the Company. The loans have the same terms and conditions which include an interest rate of Swiss franc LIBOR plus 87.5 basis points and a maturity date of April 2019 and a one year renewal term and, as such, are classified as short-term debt on the Company's consolidated balance sheet. The proceeds were used to repay outstanding amounts on the Company's credit facility.

1.47% Euro Senior Notes

The Company has designated the 1.47% Euro Senior Notes as a hedge of a portion of its net investment in euro-denominated foreign subsidiaries to reduce foreign currency risk associated with the net investment in these operations. Changes in the carrying value of this debt resulting from fluctuations in the euro to U.S. dollar exchange rate are recorded as foreign currency translation adjustments within other comprehensive income (loss). The unrealized gain (loss) recorded in other comprehensive income (loss) related to this net investment hedge was a gain of \$10.1 million and loss \$7.1 million for the three months ended June 30, 2018 and 2017, respectively, and a gain of \$4.6 million and a loss \$10.5 million for the six months periods ended June 30, 2018 and 2017, respectively.

8. SHARE REPURCHASE PROGRAM AND TREASURY STOCK

The Company has a share repurchase program of which there was \$345.9 million of remaining common shares to be repurchased under the program as of June 30, 2018. The share repurchases are expected to be funded from cash balances, borrowings and cash generated from operating activities. Repurchases will be made through open market transactions, and the amount and timing of purchases will depend on business and market conditions, the stock price, trading restrictions, the level of acquisition activity and other factors.

The Company has purchased 27.1 million shares since the inception of the program in 2004 through June 30, 2018. During the six months ended June 30, 2018 and 2017, the Company spent \$237.5 million and \$249.9 million on the repurchase of 396,218 shares and 505,593 shares at an average price per share of \$599.40 and \$494.35, respectively. The Company also reissued 68,653 shares and 153,413 shares held in treasury for the exercise of stock options and restricted stock units during the six months ended June 30, 2018 and 2017, respectively.

10. EARNINGS PER COMMON SHARE

In accordance with the treasury stock method, the Company has included the following common equivalent shares in the calculation of diluted weighted average number of common shares outstanding for the three and six month periods ended June 30, relating to outstanding stock options and restricted stock units:

	2018	2017
Three months ended	567,969	688,155
Six months ended	596,106	673,068

Outstanding options and restricted stock units to purchase or receive 56,419 shares of common stock for the three month period ended June 30, 2018 have been excluded from the calculation of diluted weighted average number of common and common equivalent shares as such options and restricted stock units would be anti-dilutive. For the three months ended June 30, 2017, there were no anti-dilutive outstanding options or restricted stock units. Options and restricted stock units to purchase or receive 56,380 and 75,182 for the six month period ended June 30, 2018 and 2017, respectively, have been excluded from the calculation of diluted weighted average of common and common equivalent shares as such options and restricted stock units would be anti-dilutive.

11. NET PERIODIC BENEFIT COST

Net periodic pension cost for the Company's defined benefit pension plans and U.S. post-retirement medical plan includes the following components for the three months ended June 30:

As previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2017, the Company expects to make employer contributions of approximately \$25.9 million to its non-U.S. pension plans during the year ended December 31, 2018. This estimate may change based upon several factors, including fluctuations in currency exchange rates, actual returns on plan assets and changes in legal requirements.

12. RESTRUCTURING CHARGES

For the three and six months ended June 30, 2018, the Company has incurred \$7.3 million and \$11.7 million of restructuring expenses which primarily relates to employee and other cost costs associated with the consolidation of facilities. Liabilities related to restructuring activities are included in accrued and other liabilities in the consolidated balance sheet. A rollforward of the Company's accrual for restructuring activities for the six months ended June 30, 2018 is as follows:

	Total
Balance at December 31, 2017	\$ 10,620
Restructuring charges	11,734
Cash payments and utilization	(13,409)
Impact of foreign currency	(130)
Balance at June 30, 2018	\$ 8,815

13. OTHER CHARGES (INCOME), NET

Other charges (income), net includes non-service pension costs (benefits), (gains) losses from foreign currency transactions and related hedging activities, interest income and other items. Nonservice pension benefits were \$1.5 million and \$1.1 million for the three months ended June 30, 2018 and 2017, respectively, and \$3.1 million and \$1.9 million and for the six months ended June 30, 2018 and 2017, respectively. Other charges (income), net for the six months ended June 30, 2017 also includes a one-time gain of \$3.4 million relating to the sale of a facility in Switzerland in connection with the Company's initiative to consolidate certain Swiss operations into a new facility.

14. SEGMENT REPORTING

As disclosed in Note 17 to the Company's consolidated financial statements for the year ended December 31, 2017, the Company has determined there are five reportable segments: U.S. Operations, Swiss Operations, Western European Operations, Chinese Operations and Other.

The Company evaluates segment performance based on Segment Profit (gross profit less research and development and selling, general and administrative expenses, before amortization, interest expense, restructuring charges, other charges (income), net and taxes).

The following tables show the operations of the Company's operating segments:

For the three months ended June 30, 2018	Net Sales to External Customers	Net Sales to Other Segments	Total Net Sales	Segment Profit	As of June 30, 2018 Goodwill

15. CONTINGENCIES

The Company is party to various legal proceedings, including certain environmental matters, incidental to the normal course of business. Management does not expect that any of such proceedings, either individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Unaudited Interim Consolidated Financial Statements included herein.

General

Our interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Operating results for the three and six months ended June 30, 2018 are not necessarily indicative of the results to be expected for the full year ending December 31, 2018.

Changes in local currency exclude the effect of currency exchange rate fluctuations. Local currency amounts are determined by translating current and previous year consolidated financial information at an index utilizing historical currency exchange rates. We believe local currency information provides a helpful assessment of business performance and a useful measure of results between periods. We do not, nor do we suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. We present non-GAAP financial measures in reporting our financial results to provide investors with an additional analytical tool to evaluate our operating results.

We also include in the discussion below disclosures of immaterial qualitative factors that are not quantified. Although the impact of such factors is not considered material, we believe these disclosures can be useful in evaluating our operating results.

Results of Operations – Consolidated

The following tables set forth certain items from our interim consolidated statements of operations for the three and six month periods ended June 30, 2018 and 2017 (amounts in thousands).

Net sales

Net sales were \$722.0 million and \$653.7 million for the three months ended June 30, 2018, and 2017, and \$1.4 billion and \$1.2 billion for the six months ended June 30, 2018 and June 30, 2017, respectively. This represents an increase of 10% and 11% in U.S. dollars for the three and six months ended June 30, 2018. Excluding the effect of currency exchange rates fluctuations, or in local currencies, net sales increased 7% and 6% for the three and six months ended June 30, 2018. The Biotix acquisition contributed approximately 1.5% to local currency net sales for both the three

and six months ended June 30, 2018. These results compare to 10% and 11% local currency growth for the three and six months ended June 30, 2017 of which the Troemner acquisition contributed approximately 2% and 1%, respectively. Global market conditions were generally favorable during the first half of 2018 and we continue to benefit from the execution of our global sales and marketing programs, our robust product portfolio, and investments in our field resources. However, we remain cautious as market conditions are subject to change and economic uncertainties exist in certain regions of the world. We will also face a difficult prior period comparison in China during the second half of 2018.

Net sales by geographic destination for the three and six months ended June 30, 2018 in U.S. dollars increased in the Americas 4% and 5%, in Europe 14% and 13%, and in Asia/Rest of World 15% and 16%, respectively. Our net sales by geographic destination for the three and six months ended June 30, 2018 in local currencies increased in the Americas 4% and 5%, in Europe 7% and 3%, and in Asia/Rest of World 9% and 10%, respectively. The Biotix acquisition contributed approximately 2.5% to our local currency net sales growth in the Americas for both the three and six months ended June 30, 2018. A discussion of sales by operating segment is included below.

As described in Note 17 to our consolidated financial statements for the year ended December 31, 2017, our net sales comprise product sales of precision instruments and related services. Service revenues are primarily derived from repair and other services, including regulatory compliance qualification, calibration, certification, preventative maintenance and spare parts.

Net sales of products increased 10% in U.S. dollars and 6% in local currencies for the three months ended June 30, 2018 and increased 11% in U.S. dollars and 6% in local currencies for the six months ended June 30, 2018, compared to the corresponding periods in 2017. The Biotix acquisition contributed approximately 2% to our net sales of products for both the three and six months ended June 30, 2018. Service revenue (including spare parts) increased by 13% in U.S. dollars and 10% in local currencies for the three months ended June 30, 2018 and increased 11% in U.S. dollars and 6% in local currencies for the six months ended June 30, 2018, compared to the corresponding periods in 2017.

Net sales of our laboratory products and services, which represented approximately 51% of our total net sales increased 14% in U.S. dollars and 10% in local currencies for the three months ended June 30, 2018, and increased 15% in U.S. dollars and 10% in local currencies for the six months ended June 30, 2018. The local currency increase in net sales of our laboratory products includes solid growth in most product categories, especially process analytics. The Biotix acquisition also contributed approximately 3% to our growth of laboratory products and services for both the three and six months ended June 30, 2018.

Net sales of our industrial products and services, which represented approximately 41% of our total net sales increased 6% in U.S. dollars and 3% in local currencies for the three months ended June 30, 2018, and increased 6% in U.S. dollars and 1% in local currencies for the six months ended June 30, 2018. The local currency increase in net sales of our industrial products includes strong growth in core-industrial, offset in part by a decline in product inspection which had strong growth in the prior year comparable periods.

Net sales in our food retailing products and services, which represented approximately 8% of our total net sales increased 11% in U.S. dollars and 6% in local currencies for the three months ended June 30, 2018, and increased 9% in U.S. dollars and 3% in local currencies for the six months ended June 30, 2018. Food retailing included strong project activity in the Americas, offset by reduced net sales in Europe which had strong growth in the prior year six month period.

Gross profit

Gross profit as a percentage of net sales was 57.2% and 57.5% for the three months ended June 30, 2018 and 2017, and 57.0% and 57.6% for the six months ended June 30, 2018 and 2017, respectively.

Gross profit as a percentage of net sales for products was 60.6% and 61.1% for the three months ended June 30, 2018 and 2017, respectively, and 60.5% and 61.4% for the six months ended June 30, 2018 and 2017, respectively.

Gross profit as a percentage of net sales for services (including spare parts) was 45.1% and 44.3% for the three months ended June 30, 2018 and 2017, respectively, and 44.7% and 44.5% for the six months ended June 30, 2018 and 2017, respectively.

The decrease in gross profit as a percentage of net sales for the three and six months ended June 30, 2018 was primarily due to the impact of foreign currency translation, initial costs associated with a new manufacturing facility and the Biotix acquisition, offset in part by favorable price realization.

Research and development and selling, general and administrative expenses

Research and development expenses as a percentage of net sales was 4.9% and 5.0% for the three months ended June 30, 2018 and 2017, and was 5.1% for both the six months ended June 30, 2018 and 2017, respectively. Research and development expenses increased 9% in U.S. dollars and increased 6% in local currencies for the three months ended June 30, 2018, and increased 10% in U.S. dollars and increased 6% in local currencies for the six months ended June 30, 2018, respectively, compared to the corresponding periods in 2017 relating to increased project activity.

Selling, general and administrative expenses as a percentage of net sales were 28.8% and 29.9% for the three months ended June 30, 2018 and 2017, and was 29.6% and 30.5% for the six months ended June 30, 2018 and 2017, respectively. Selling, general and administrative expenses increased 6% in U.S. dollars and 3% in local currencies for the three months ended June 30, 2018, and increased 7% in U.S. dollars and 3% in local currencies for the six months ended June 30, 2018. The local currency increase includes investments in our field sales organization and growth initiatives, offset in part by benefits from our cost savings initiatives.

Amortization, interest expense, other charges (income), net and taxes

Amortization expense was \$12.0 million and \$10.2 million for the three months ended June 30, 2018 and 2017, respectively, and \$23.7 million and \$20.3 million for the six months ended June 30, 2018 and 2017, respectively.

Interest expense was \$8.3 million and \$8.2 million for the three months ended June 30, 2018 and 2017, respectively, and \$16.7 million and \$15.9 million for the six months ended June 30, 2018 and 2017, respectively.

Other charges (income), net includes non-service pension costs (benefits), (gains) losses from foreign currency transactions and related hedging activities, interest income and other items. Nonservice pension benefits was \$1.5 million and \$1.1 million for the three months ended June 30, 2018 and 2017, respectively, and \$3.1 million and \$1.9 million for the six months ended June 30, 2018 and 2017, respectively. Other charges (income), net for the six months ended June 30, 2017 also includes a one-time gain of \$3.4 million relating to the sale of a facility in Switzerland in connection with the our initiative to consolidate certain Swiss operations into a new facility.

Our reported tax rate was 22.4% and 19.9% during the three months ended June 30, 2018 and 2017, respectively and 21.6% and 19.4% during the six months ended June 30, 2018 and 2017, respectively. The increase in our reported tax rate for the three and six month periods is related to the timing of excess tax benefits associated with stock option exercises. The provision for taxes is based upon using our projected annual effective tax rate of 22.0% before non-recurring discrete tax items for the three and six months periods ended June 30, 2018. The difference between our projected annual effective tax rate of 22.0% and our reported tax rate is related to the timing of excess tax benefits associated with stock option exercises.

On December 22, 2017, the Tax Cuts and Jobs Act (the "Act") significantly revised U.S. corporate income tax law. The Act includes, among other things, a reduction in the U.S. federal corporate income tax rate from 35% to 21% effective for taxable years beginning after December 31, 2017, and the implementation of a modified territorial tax system that includes a one-time transition tax on deemed repatriated earnings of foreign subsidiaries ("Transition Tax") that is payable over a period of up to eight years.

Our accounting for the Act is based upon reasonable estimates, however, our estimates may change upon the finalization of the Act's implementation and additional interpretive guidance from regulatory authorities. Among other things, we need to complete our analysis of historical foreign earnings and related taxes paid and our analysis of foreign cash equivalents. In addition, we need to complete our analysis of deemed repatriation of deferred foreign income and related state tax effects. We will complete our accounting for the above tax effects of the Act during 2018 as provided in SAB 118 and will reflect any adjustments to our provisional amounts as an adjustment to the provision for taxes in the reporting period in which the amounts are finally determined.

Results of Operations – by Operating Segment

The following is a discussion of the financial results of our operating segments. We currently have five reportable segments: U.S. Operations, Swiss Operations, Western European Operations, Chinese Operations and Other. A more detailed description of these segments is outlined in Note 17 to our consolidated financial statements for the year ended December 31, 2017.

Total net sales and net sales to external customers both increased 5% for the three months ended June 30, 2018 compared with the corresponding period in 2017. Total net sales and net sales to external customers both increased 6% for the six months ended June 30, 2018 compared with the corresponding period in 2017. Net sales to external customers benefited approximately 4% from the Biotix acquisition for the three and six month periods ended June 30, 2018. The increase in total net sales and net sales to external customers for the three and six months ended June 30, 2018 reflects solid results in our laboratory products. We also experienced strong growth in retail due to the timing of project activity, offset in part by a decrease in product inspection related to particularly strong growth in the prior year periods.

Segment profit decreased \$3.1 million and \$7.7 million for the three and six months ended June 30, 2018, respectively, compared to the corresponding periods in 2017, primarily due to initial costs associated with a new manufacturing facility and continued investments in our field sales and service organization offset in part by benefits from our margin expansion initiatives.

Total net sales increased 11% in U.S. dollars and 10% in local currency for the three months ended June 30, 2018, and increased 11% in U.S. dollars and 8% in local currency for the six months ended June 30, 2018 compared to the corresponding periods in 2017. Net sales to external customers were flat in U.S. dollars and decreased 1% in local currency for the three months ended June 30, 2018 and increased 4% in U.S. dollars and 2% in local currency for the six months ended June 30, 2018, compared to the corresponding periods in 2017. Local currency net sales to external customers for the three months ended June 30, 2018 includes strong growth in our core-industrial products, offset by a decrease in laboratory products. The increase in net sales to external customers for the six months ended June 30, 2018 includes growth in most product categories, especially core-industrial products.

Segment profit increased \$9.8 million and \$19.7 million for the three and six month periods ended June 30, 2018, compared to the corresponding periods in 2017. Segment profit during the three and six months ended June 30, 2018 includes the impact of increased net sales volume, our margin expansion initiatives and favorable foreign currency translation, offset in part by higher research and development activity.

1) Represents U.S. dollar growth (decline) for net sales and segment profit.

Total net sales increased 12% in U.S. dollars and 4% in local currencies for the three months ended June 30, 2018 and increased 10% in U.S. dollars and decreased 1% in local currencies for the six months ended June 30, 2018, compared to the corresponding periods in 2017. Net sales to external customers increased 15% in U.S. dollars and increased 7% in local currencies for the three months ended June 30, 2018, and increased 14% in U.S. dollars and 2% in local currencies for the six months ended June 30, 2018, compared to the corresponding periods in 2017. Local currency net sales to external customers for the three and six months ended June 30, 2018 includes solid growth in most product categories, offset in part by declines in food retailing which faced very strong project activity in the prior six month period ended June 30, 2017.

Segment profit increased \$2.6 million and decreased \$3.8 million for the three and six month periods ended June 30, 2018, respectively, compared to the corresponding periods in 2017. The increase in segment profit for the three month period ended June 30, 2018 includes increased net sales volume, our margin expansion initiatives, and favorable currency translation, partially offset by higher research and development activity and an inter-segment product transfer. The decrease in segment profit for the six months ended June 30, 2018 also includes roll-in costs associated with our Blue Ocean program.

1) Represents U.S. dollar growth for net sales and segment profit.

Total net sales increased 16% in U.S. dollars and 8% in local currency for the three months ended June 30, 2018 and increased 19% in U.S. dollars and 10% local currency for the six months

ended June 30, 2018, compared to the corresponding periods in 2017. Net sales to external customers increased 23% in U.S. dollars and 15% in local currency for the three months ended June 30, 2018 and increased 24% in U.S. dollars and 16% local currency during the six months ended June 30, 2018, compared to the corresponding periods in 2017. The increase in local currency net sales to external customers during the three and six months ended June 30, 2018 reflects very strong growth in most product categories, especially laboratory products. While Chinese market conditions are currently favorable we will face difficult prior period comparisons during the remainder of 2018 due to our strong performance in 2017. In addition to the tough comparisons the Chinese economy has historically been volatile and market conditions may change unfavorably due to various factors.

Segment profit increased \$11.8 million and \$26.7 million for the three and six month periods ended June 30, 2018, respectively, compared to the corresponding periods in 2017. The increase in segment profit for the three and six months ended June 30, 2018 includes increased local currency net sales volume and benefits from our margin expansion and cost savings initiatives, and favorable foreign currency translation.

1) Represents U.S. dollar growth for net sales and segment profit.

Total net sales increased 6% in U.S. dollars and 3% in local currencies for the three months ended June 30, 2018 and increased 6% in U.S. dollars and 2% in local currencies for the six months ended June 30, 2018, compared to the corresponding periods in 2017. Net sales to external customers increased 7% in U.S. dollars and 4% in local currencies for the three months ended June 30, 2018 and increased 7% in U.S. dollars and 2% in local currencies for the six months ended June 30, 2018, compared to the corresponding periods in 2017. Local currency sales growth reflects growth in laboratory products offset by declines in food retailing and product inspection related which had strong project activity in the prior year periods.

Segment profit increased \$2.5 million and \$3.2 million for the three and six months ended June 30, 2018, respectively, compared to the corresponding periods in 2017. The increase in segment profit is primarily due to benefits from our margin expansion initiatives and favorable foreign currency translation, offset in part by increased sales and service investments.

Liquidity and Capital Resources

Liquidity is our ability to generate sufficient cash flows from operating activities to meet our obligations and commitments. In addition, liquidity includes the ability to obtain appropriate financing. Currently, our financing requirements are primarily driven by working capital requirements, capital expenditures, share repurchases and acquisitions.

Cash provided by operating activities totaled \$216.8 million during the six months ended June 30, 2018, compared to \$205.4 million in the corresponding period in 2017. The increase in 2018 is primarily related to higher net income of \$10.7 million, offset in part by a Transition Tax payment of \$4.2 million (see below).

Capital expenditures are made primarily for investments in information systems and technology, machinery, equipment and the purchase and expansion of facilities. Our capital expenditures totaled \$61.6 million for the six months ended June 30, 2018 compared to \$48.5 million in the corresponding period in 2017. The increase is primarily related to investments in

manufacturing facilities. We expect to make net investments in new or expanded manufacturing facilities of \$20 million to \$30 million over the next two years.

In 2017, we recorded a provisional one-time charge of \$72 million for the estimated income tax effect of the Transition Tax associated with the Tax Cuts and Jobs Act of which \$59 million is expected to be paid over a period of up to eight years. In April 2018, we paid our first Transition Tax payment of \$4.2 million.

We plan to repatriate earnings from China, Switzerland, Germany, the United Kingdom and certain other countries in future years and expect the only additional cost associated with the repatriation of such earnings outside the United States will be any applicable withholding taxes. All other undistributed earnings are considered to be permanently reinvested. As of June 30, 2018, we have an immaterial amount of cash and cash equivalents outside the United States where undistributed earnings are considered permanently reinvested. Accordingly, we believe the tax impact associated with repatriating our undistributed foreign earnings will not have a material effect on our liquidity.

Senior Notes and Credit Facility Agreement

Our debt consisted of the following at June 30, 2018:

	June 30, 2018

Total debt	819,084	253,388	1,072,472
Less: current portion	(359)	(51,693)	(52,052)
Total long-term debt	\$ 818,725	\$ 201,695	\$ 1,020,420

On June 15, 2018 we entered into an amended \$1.1 billion Credit Agreement (the "Credit Agreement"), which amended our \$800 million Amended and Restated Credit Agreement (the "Prior Credit Agreement"), that is further described in Note 7 of our consolidated financial statements.

As of June 30, 2018, approximately \$566.9 million was available under the Credit Agreement. Changes in exchange rates between the currencies in which we generate cash flows and the currencies in which our borrowings are denominated affect our liquidity. In addition, because we borrow in a variety of currencies, our debt balances fluctuate due to changes in exchange rates.

In April 2018, two of our non-U.S. pension plans issued loans totaling \$39.6 million (Swiss franc 38 million) to our wholly owned subsidiary. The loans have the same terms and conditions which include an interest rate of Swiss franc LIBOR plus 87.5 basis points and a maturity date of April 2019 and a one year renewal term and, as such, are classified as short-term debt on our consolidated balance sheet. The proceeds were used to repay outstanding amounts on our credit facility.

We currently believe that cash flow from operating activities, together with liquidity available under our credit facility and local working capital facilities, will be sufficient to fund currently anticipated working capital needs and capital spending requirements for at least the foreseeable future.

We continue to explore potential acquisitions. In connection with any acquisition, we may incur additional indebtedness.

Share Repurchase Program

We have a share repurchase program of which there was \$345.9 million of remaining common share to be repurchased under the program as of June 30, 2018. The share repurchases are expected to be funded from cash generated from operating activities, borrowings, and existing cash balances. Repurchases will be made through open market transactions, and the amount and timing of purchases will depend on business and market conditions, stock price, trading restrictions, the level of acquisition activity, and other factors.

We have purchased 27.1 million shares since the inception of the program through June 30, 2018. During the six months ended June 30, 2018 and 2017, we spent \$237.5 million and \$249.9 million on the repurchase of 396,218 and 505,593 shares at an average price per share of \$599.40 and \$494.35, respectively. We also reissued 68,653 shares and 153,413 shares held in treasury for the exercise of stock options and restricted stock units during the six months ended June 30, 2018 and 2017, respectively.

Effect of Currency on Results of Operations

Our earnings are affected by changing exchange rates. We are most sensitive to changes in the exchange rates between the Swiss franc, euro, and U.S. dollar. We have more Swiss franc expenses than we do Swiss franc sales because we develop and manufacture products in Switzerland that we sell globally, and have a number of corporate functions located in Switzerland. When the Swiss franc strengthens against our other trading currencies, particularly the U.S. dollar and euro, our earnings go down. We also have significantly more sales in the euro than we do expenses. When the euro weakens against the U.S. dollar and Swiss franc, our earnings also go down. We estimate a 1% strengthening of the Swiss franc against the euro would reduce our earnings before tax by approximately \$1.6 million to \$1.8 million annually.

We also conduct business in many geographies throughout the world, including Asia Pacific, the United Kingdom, Eastern Europe, Latin America, and Canada. Fluctuations in these currency exchange rates against the U.S. dollar can also affect our operating results. The most significant of these currency exposures is the Chinese Renminbi. The impact on our earnings before tax of the Chinese Renminbi weakening 1% against the U.S. dollar is a reduction of approximately \$1.1 million to \$1.3 million annually.

In addition to the effects of exchange rate movements on operating profits, our debt levels can fluctuate due to changes in exchange rates, particularly between the U.S. dollar and the Swiss franc. Based on our outstanding debt at June 30, 2018, we estimate that a 10% weakening of the U.S. dollar against the currencies in which our debt is denominated would result in an increase of approximately \$28.2 million in the reported U.S. dollar value of our debt.

Forward-Looking Statements Disclaimer

You should not rely on forward-looking statements to predict our actual results. Our actual results or performance may be materially different than reflected in forward-looking statements because of various risks and uncertainties. You can identify forward-looking statements by terminology such as “may,” “will,” “could,” “would,” “should,” “expect,” “plan,” “anticipate,” “intend,” “believe,” “estimate,” “predict,” “potential” or “continue”.

We make forward-looking statements about future events or our future financial performance, including earnings and sales growth, earnings per share, strategic plans and contingency plans, growth opportunities or economic downturns, our ability to respond to changes in market conditions, planned research and development efforts and product introductions, adequacy of facilities, access to and the costs of raw materials, shipping and supplier costs, gross margins, customer demand, our competitive position, capital expenditures, cash flow, tax-related matters, compliance with laws, and effects of acquisitions.

Our forward-looking statements may not be accurate or complete, and we do not intend to update or revise them in light of actual results. New risks also periodically arise. Please consider the risks and factors that could cause our results to differ materially from what is described in our forward-looking statements. See in particular “Factors Affecting Our Future Operating Results” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of our 2017 Annual Report on Form 10-K.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of June 30, 2018, there was no material change in the information provided under Item 7A in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017.

Item 4. Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer, have concluded that these disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting during the quarter ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Employment Agreement

between Mettler-Toledo International Inc., Greifensee Branch, Im Langacher, 8606 Greifensee, Switzerland ("Company"), and Mr. Gerhard Keller, born April 14, 1967, Swiss Citizen ("Employee").

The parties enter into an employment agreement on the terms and conditions set forth below:

Function	Head Process Analytics Division, Member of the Group Management Committee ("GMC") of the METTLER TOLEDO Group.
Employing Company / Position Location	Mettler-Toledo International Inc., Greifensee Branch, 8606 Greifensee, Switzerland. The principal places of work are Urdorf and Greifensee, Switzerland. Given the international presence of the company, employee's duties will require regular business travel to the Group's various locations. If not otherwise stipulated in this agreement, the General Terms and Conditions of Employment ("GTCE") of our Swiss operations apply.
Remuneration	Base Salary of CHF 290'000.00 gross per annum, effective with the starting date, payable in twelve equal monthly installments of CHF 24'166.65. Participation in the Incentive Plan POBS Plus for Members of the Group Management of METTLER TOLEDO pursuant to the then-current plan and regulations. Under this plan Employee is eligible to earn a cash incentive based upon achievement of various financial and personal targets. For 100% target achievement, the cash incentive is currently CHF 130'500.00 gross (45% of base salary). The scaling of the incentive system and selection and weighting of targets, including personal targets, are determined by the Compensation Committee of the Board of Directors.
Expenses	Expense Allowance according to then-current regulations of CHF 10'500.00 per annum, payable in twelve monthly installments of CHF 875.00. No commuting or vehicle allowance will be paid.
Equity Incentive Plan	Participation in the METTLER TOLEDO Equity Incentive Plan as may be amended from time to time.
Personnel Insurance	Additional Accident Insurance and Disability Insurance at METTLER TOLEDO's expense. Participation in the pension arrangement for GMC members as might be amended from time to time, with defined contributions at METTLER TOLEDO's expense. The insured salary is 77.2727% of Target Salary, subject to limits applicable under Swiss law.
Vacation	27 working days per calendar year, including compensation for overtime as per Supplementary Regulations on Working Hours and Absences of our Swiss operations. Unused vacation days in a given year will not be carried forward.

Duration / Notice Period	This employment agreement is effective as of July 1, 2018 and is of unlimited duration. It may be terminated by either party without cause by giving twelve (12) months notice in writing to the end of a month and shall terminate at the end of such notice period.
Non-Competition	While Employee is employed by METTLER TOLEDO and for a period of twelve months after his termination, Employee shall not directly or indirectly (a) engage in or be employed in any business anywhere in the world which competes with the businesses of METTLER TOLEDO, or (b) solicit for hire or hire any METTLER TOLEDO employee.
Confidentiality	Employee agrees to keep confidential both during and after his employment with METTLER TOLEDO all information of a confidential nature not generally known outside of METTLER TOLEDO, and not to use such confidential information other than for purposes of performing his duties for METTLER TOLEDO.
Tax Filings	The parties acknowledge a separate agreement will be signed regarding tax equalization matters.
Previous Employment Agreements	With the effectiveness of this employment agreement, all previous employment agreements or amendments to such employment agreements with METTLER TOLEDO shall be considered cancelled. The acquired period of service since January 1, 1991 is taken into consideration where applicable.
Applicable Law and Jurisdiction	This agreement shall be governed by Swiss law. All disputes concerning the terms and conditions of this agreement shall be brought before the ordinary courts in the Canton of Zurich, Switzerland.

- (4) The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- (5) The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the Audit Committee of the registrant's Board of Directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
